## **Some quotations from students' evaluation sheets from our programmes:**

*I came to Poland with a very open mind and was easily blown away with the history and beauty of the city. The course was planned very nicely to show the main attractions of Poland & JP II.*

*I absolutely loved Lublin, a simple & historical town with friendly, accepting & passionate people!*

*Thank you to the whole team for a great trip and great learning opportunity. I have grown as a person and appreciated all the hard work that goes into making this program possible.*

*It was incredibly well organized and timely. I have traveled in Europe with big groups and I have never had such an organized and knowledgeable leader (...) it was the trip of a lifetime.*

*I would suggest this program and trip to all of my friends without a doubt.*

*I loved everything about this trip. Even if I didn't care for the food or couldn't quite understand something, I appreciated the fact that I was immersed in a culture and life outside my comfort zone.*

*Poland has blown me away with its hospitality and generosity*
