SOME REMARKS ON THE RELATION OF ALTERNATIVITY
IN THE SEMANTICS OF POSSIBLE WORLDS

Summary

This paper analyses the concept of the relation of alternativity between possible worlds, the primary concept for relational semantics. We have focused only on epistemic and doxastic logics. The paper presents two approaches to these logics: J. Hintikka's position and R. Stalnaker's position.

Translated by Jan Kłós

Słowa kluczowe: logiki modalne, logiki wiedzy i przekonań, możliwy świat, relacja alternatywności (dostępności).

Key words: modal logics, logics of knowledge and beliefs, the possible world relation of alternativity (accessibility).
