The issues of integration of education, science and innovations in the context of cooperation between Ukrainian and Polish technical universities were discussed by the representatives of the Polish Education Foundation "PERSPEKYWY", Conference of Rectors of Technical Universities of the Republic of Poland and Association of Rectors of Higher Technical Education Institutions of Ukraine during the round table "Unity of education, science and innovations – main way for integration of Ukraine into the European higher technical education system".

The participants of the round table agreed upon directions of further collaboration in the context of European integration.

1. Collaboration in academic area:

Double Degree programs; European accreditation of engineering programs; development of the rating system for evaluation of engineering programs;- students and faculty staff exchanges.

2. Collaboration in scientific area:

- development of innovative environment; information and communication technologies; green and alternative energy; sustainable development; nanomaterials and nanotechnologies; efficient nature management; life sciences; technologies of water purification; cyber security; aviation and space technologies; programs "Students' satellite"; logistics and transport; underwater and underground building (development of underwater and underground space).

3. Collaboration in the field of innovation development: creation of joint innovative environment;- support and development of joint start-up companies of Ukraine and Poland.

4. Collaboration in humanitarian field:

sports;- art;- culture.

The participants of the round table agreed to hold on April 6-7, 2017 Ukrainian-Polish days of science, education and innovations – large-scale forum for representatives of education and science of Ukraine and Poland. Thematic areas of the forum will cover not only a range of issues of a higher school, but also major issues of education, science, and innovations in both countries as well as the issue of strengthening cooperation to increase their efficiency.

This resolution was supported by the Ministry of Science and Higher Education of the Republic of Poland and Ministry of Education and Science of Ukraine.

Under the patronage of

*Vice Prime Minister, Minister of Science and Higher Education of the Republic of Poland
Jarosław Gowin*

*Minister of Education and Science of Ukraine
Liliya Hrynevych*
