## Course Syllabus

I. General Information

| Course name | Object-oriented programming II |
| :--- | :--- |
| Programme | Informatics |
| Level of studies (BA, BSc, MA, MSc, long-cycle <br> MA) | BA |
| Form of studies (full-time, part-time) | Full-time |
| Discipline | Informatics |
| Language of instruction | English |

| Course coordinator | Dorota Pylak, PhD |
| :--- | :--- |

| Type of class (use only <br> the types mentioned <br> below) | Number of teaching <br> hours | Semester | ECTS Points |
| :--- | :--- | :--- | :--- |
| lecture | 30 |  |  |
| tutorial |  | 4 |  |
| classes | 30 |  |  |
| laboratory classes |  |  |  |
| workshops |  |  |  |
| seminar |  |  |  |
| introductory seminar |  |  |  |
| foreign language <br> classes |  |  |  |
| practical placement |  |  |  |
| field work |  |  |  |
| diploma laboratory |  |  |  |
| translation classes |  |  |  |
| study visit |  |  |  |

| Course pre-requisites | Introduction to computer science. <br> Fundamentals of algorithms and programming <br> Object-oriented programming |
| :--- | :--- |

## II. Course Objectives

| Familiarizing students with the methodology and technique of object-oriented programming - <br> continuation. |
| :--- |
| Deepening the knowledge of Java |

III. Course learning outcomes with reference to programme learning outcomes

| Symbol | Description of course learning outcome | Reference to <br> programme learning <br> outcome |
| :--- | :---: | :---: |
| KNOWLEDGE |  |  |
| W_01 | The student recognizes selected elements of the Java lan- <br> guage, presents the concepts of object-oriented programming | K_W01 K_W03 |

| W_02 | The student is familiar with the basic algorithms and examples of their practical implementation using concepts of the objectoriented programming | $\begin{aligned} & \text { K_W01, K_W03, } \\ & \text { K_W06 } \end{aligned}$ |
| :---: | :---: | :---: |
| W_03 | The student recognizes the elements of functional programming | $\begin{aligned} & \text { K_W01, K_W03 } \\ & \text { K_W06 } \end{aligned}$ |
| W_04 | The student knows the possibilities of sample Java classes and interfaces | K_W01, K_W03 |
| SKILLS |  |  |
| U_01 | The student is able to recognize and apply classes, interfaces, selected collections, and program algorithms. Uses parameterized types, exceptions, selected streams and simple regular expressions. | $\begin{aligned} & \hline \text { K_U04, K_U07, } \\ & \text { K_U08, K_U10, } \\ & \text { K_U11, K_U12 } \end{aligned}$ |
| U_02 | The student is able to create console applications and use the IDE programming environment | $\begin{aligned} & \hline \text { K_U04, K_U07, } \\ & \text { K_U08, K_U10, } \\ & \text { K_U11, K_U12, } \\ & \text { K_U17 } \end{aligned}$ |
| U_03 | The student is able to use the elements of functional programming. Creates a simple lambda expression | $\begin{aligned} & \text { K_U04, K_U07, } \\ & \text { K_U08, K_U10, } \\ & \text { K_U11, K_U12, } \\ & \text { K_U17 } \end{aligned}$ |
| U_04 | The student is able to create applications using selected Java classes and interfaces | $\begin{aligned} & \hline \text { K_U04, K_U07, } \\ & \text { K_U08, K_U10, } \\ & \text { K_U11, K_U12, } \\ & \text { K_U17 } \end{aligned}$ |
| SOCIAL COMPETENCIES |  |  |
| K_01 | The student can communicate and cooperate in professional environment | K_K01 |

## IV. Course Content

1. Exceptions (Java).
2. Enum
3. Generic types
4. Lists, collections, maps
5. Streams
6. Inner and anonymous classes
7. Built-in Java interfaces like Comparator and Comparable
8. Lambda expressions and stream programming. Optional
9. String and StringBuilder.
10. Regular expressions -introduction

## V. Didactic methods used and forms of assessment of learning outcomes

| Symbol | Didactic methods <br> (choose from the list) | Forms of assessment <br> (choose from the list) | Documentation type <br> (choose from the list) |
| :--- | :--- | :--- | :--- |
| KNOWLEDGE |  |  |  |
| W_01 | Conventional lecture / <br> Guided practice | Exam/Written test | Examination card / writ- <br> ten test/report file |
| W_02 | Conventional lecture / <br> Guided practice | Exam/Written test | Examination card / writ- <br> ten test/report file |

| SKILLS |  |  |  |
| :--- | :--- | :--- | :--- |
| U_01 | -practical classes <br> -design thinking | Exam/Written test | Examination card / writ- <br> ten test/report file |
| U_02 | -practical classes <br> -design thinking | Exam/Written test | Examination card / writ- <br> ten test/report file |
| U_03 | -practical classes <br> -design thinking | Exam/Written test | Examination card $/$ writ- <br> ten test/report file |
| SOCIALCOMPETENCIES |  |  |  |
| K_01 | Discussion, PBL (Problem- <br> Based Learning) <br> design thinking | Exam/Written test | Examination card / writ- <br> ten test/report file |
| K_02 | Discussion, PBL (Problem- <br> Based Learning) <br> design thinking | Exam/Written test | Examination card / writ- <br> ten test/report file |

VI. Grading criteria, weighting factors.....

To pass a course, the student has to attend a classes and has to pass the tests and the final exam.

- passing classes - colloquia - 90\% of the final grade, student's activity and work during classes - 10\% of the final grade.
- written exam - for people who have passed the classes. Detailed conditions of exemption are given to students with each course edition.

Detailed assessment rules are given to the students with each edition of the course.

## VII. Student workload

| Form of activity | Number of hours |
| :--- | :--- |
| Number of contact hours (with the teacher) | $\mathbf{9 0}$ |
| Number of hours of individual student work | $\mathbf{6 0}$ |

## VIII. Literature

| Basic literature |
| :--- |
