Abstract: There are many aspects of right to use of instruments of social communication by the Magisterium of Church according to the 1983 Code of Canon Law, are presented in this article. The Catholic Church's prerogatives, related to this issue, are result of its nature and they are means to salvation of souls, which must always be the supreme law in the Church. In order to preserve the integrity of the truths of faith and morals, this right should be defended, because this innate right cannot be subject of state jurisdiction.
