Abstract There is no doubt that teaching in the Catholic Church of the existence of personal evil, Satan is important and necessary. Monthly magazine "Egzorcysta" gathered a group of people competent and having practical experience in this field. There are number of interviews and regular headings which help to understand how the Devil acts in the human life. However, not enough space is dedicated to touch upon the psychological aspect of the whole reality of Satan`s activity including spiritual enslavement and possession. In addition, this magazine lacks a wide range of interpretations of the texts from the Bible and the teaching of the Fathers of the Church. Even though monthly magazine "Egzorcysta" is an interesting form of catechesis in the given matter, it has also certain shortcomings and mistakes.
